A photograph of a vast desert landscape featuring rolling sand dunes under a clear, pale blue sky. The dunes are composed of fine, light-colored sand, with some areas showing darker, more saturated tones. Overlaid on the image is a series of white, thin-lined squares of various sizes, arranged in a non-uniform, overlapping pattern. The text "NEW COLORS INSPIRED BY NATURE" is centered in the middle of the image, written in a clean, white, sans-serif font. The word "NATURE" is in a larger, bolder font than the other words.

NEW COLORS
INSPIRED BY
NATURE

I nuovi colori AEC permettono di integrare armoniosamente il design dei prodotti con l'architettura del paesaggio, creando un effetto visivo che valorizza l'ambiente circostante.

The new AEC colors enable the product designs to blend seamlessly with landscape architecture, creating a visual effect that enhances the surrounding environment.
